BESPOKE CPD

GSHW service understands that every school's needs are different and the structured courses in this annual programme may not suit your requirements. In view of this we are able to arrange bespoke professional learning courses that can be tailored to the individual or school cluster needs. These sessions can be delivered over a day, half day or twilight session.

This element of the GSHW SLA has been included to allow member schools to build a tailored package of support aligned to their individual needs and priorities.

*Non-member schools do have access to this service and can contact us, using the information below, to discuss prices and availability (member schools' requirements always take precedence).

Please contact the Gateshead School Sport Partnership to discuss your individual needs using the following address: GatesheadSSP@gateshead.gov.uk

FURTHER DETAILS & BOOKING:

To find full details and book your place(s) simply click the link(s) under each CPD opportunity.
